

## **Bondar Challenge Artist's Statement**

**Name:** Breanne Perron-Butchart

**Title of My Photograph:** *Frog*

**Artist's Statement:**

*Aim:* This photo aims to show a living thing that I caught on camera, which is pretty interesting.

*Subject:* The main thing in this photo is the frog.

*Theme:* Biodiversity

*Biome:* Mixedwood Forest in Boreal Ecozone

*Artistic Aspects:* There are lots of greens in the water and it is natural light.

*Scientific Aspects:* There is a frog in this photo and if you zoom in you can really see the colour of the frog and you see what frogs like to live in.

*Room for Improvement:* To improve my photo I could have been a little closer or could have taken it from a different angle.
